

Safety Brief #101: Additional 1 pager checklist in each plane (6/24/2024)

CFI Teamsters,

We have added a 1 pager checklist to each of our fleet a couple weeks ago to provide additional resources/tools for our pilot/renter community. I totally expect them to disappear from time to time as they go home with students or renters. All ok.

Please feel free to text me a tail number if you notice one is missing and we will get it replaced asap. You can just text me with the tail number at any point.

Have fun, stay safe.
